Medical Access and Sliding Fee Scale Programs*
Demographics Characteristics, CCC patients FY17, FY18
FY17 - 93,705; FY18 - 108,729**

** A total of 10,668 patients were identified as homeless in FY2017 and 10,839 in FY2018.

* This includes patients who have been enrolled in the Medical Assistance Program (MAP) administered by the CCC or Sliding Fee Scale (SFS) programs reimbursed by the CCC. Patients seen exclusively through the Seton Charity Care (SCC) program are not included.

** Patients were deduplicated using a Patient Community ID (CID). CID Identifications are unique, site agnostic patient identifiers. They are assigned to all patients included in the eligibility database who are eligible for MAP or Sliding Fee Scale services regardless of whether or not they present in a clinical setting.
